DENZEL K OWUSU ANSAH

Phone: +233-20-307-3754 Email: Denzelansah511@gmail.com

SUMMARY Organized and results-driven front-end developer with 3 years of experience creating visually appealing and functional websites and web applications. Strong foundation in HTML5, CSS3, and JavaScript, with proficiency in Python, React.js, and experience in full-stack development. Bachelor's Degree in Computer Science or equivalent experience. Demonstrates understanding of fundamental web development concepts such as responsive UI, rendering optimization, and client-server communication. Good verbal and written communication skills. Self-motivated, learning-oriented, and collaborative.

EXPERIENCE Front-End Developer | POMEGRID FARMS | January 2021 - Present

- Designed and developed responsive websites and web applications, meeting customer requirements and project timelines.
- Managed the end-to-end development process, from requirement gathering to deployment and maintenance.
- Utilized HTML5, CSS3, JavaScript, and various front-end frameworks to create visually appealing and functional designs.
- Ensured compatibility and responsiveness of sites across multiple devices and browsers.
- Collaborated with clients, designers, and back-end developers to ensure seamless integration of front-end designs with back-end functionality.
- Increased website traffic by 25% through implementation of SEO best practices.

Freelance Front-End Developer | January 2020 - December 2021

- Created visually appealing and user-friendly websites for multiple clients.
- Developed responsive layouts using HTML5, CSS3, and JavaScript.
- Ensured cross-browser compatibility and responsiveness of sites.
- Collaborated closely with clients to understand project requirements and implemented designs accordingly.
- Achieved a client satisfaction rate of 95% based on feedback and project success.

Web Design Intern | NexTech | June 2019 - December 2019

- Assisted in the design and development of company websites, focusing on user experience and modern design trends.
- Collaborated with the development team to implement responsive layouts and optimize site performance.
- Conducted usability testing and provided feedback for continuous improvement.

SKILLS Frontend Development:

- Proficient in HTML5, CSS3, and JavaScript, with hands-on experience in building modern and interactive web applications.
- Strong understanding of responsive design principles and the ability to create fluid layouts that adapt seamlessly to different screen sizes and devices.
- Experience with front-end frameworks such as Bootstrap, Material UI, and JavaScript build/test tools like Webpack, Babel, Jest, and NPM.
- Familiarity with TypeScript and its application in front-end development.

JavaScript Frameworks and Libraries:

- Solid knowledge of React.js for building dynamic and scalable user interfaces.
- Familiarity with state management libraries such as Redux or Vuex to effectively manage and synchronize application state.
- Experience in integrating and working with third-party APIs to retrieve and display data in real-time.
- Developed and maintained a React.js component library for improved development efficiency.

CSS Preprocessors and Styling:

- Proficient in CSS preprocessors like Sass or Less to enhance productivity and maintainable codebase with features like variables, mixins, and nesting.
- Knowledge of CSS methodologies such as BEM (Block Element Modifier) for writing scalable and modular CSS code.
- Strong understanding of CSS animations, transitions, and keyframes to create visually engaging user experiences.
- Implemented CSS Grid and Flexbox layouts for responsive and flexible designs.

Version Control and Collaboration:

- Experience working with version control systems like Git to manage code repositories, track changes, and collaborate effectively with team members.
- Familiarity with collaborative development workflows using platforms like GitHub, including pull requests and code reviews.
- Actively participated in code reviews to ensure code quality and adherence to best practices.

Backend Technologies:

- Basic understanding of backend technologies such as PHP and MySQL, enabling seamless collaboration with backend developers and integration of frontend with backend systems.
- Knowledge of RESTful APIs and AJAX to communicate with server-side applications and retrieve data dynamically.

ADDITIONAL SKILLS

- Good verbal and written communication skills.
- Self-motivated, learning-oriented, and collaborative.
